

# ABOUT MUSCO LIGHT™: Mobile Lighting System

Musco is a global leader in sports and large area lighting and technology. With more than 1,600 team members, the company provides permanent and temporary lighting solutions for customers in over 125 countries.

Through decades of innovation, Musco continues to raise the bar with the introduction of Musco Light Show Technology in 2024.

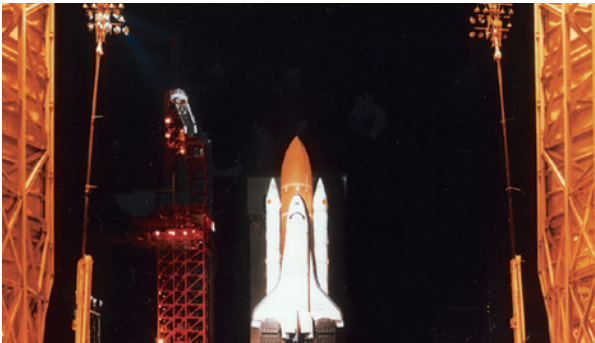

## FIRST EVER NIGHT GAME

### Notre Dame Stadium – First-Ever Night Game South Bend, Indiana

Musco revolutionized mobile lighting in 1982 with the debut of its Musco Light system. This self-contained mobile system provided precise, uniform lighting for a nationally televised nighttime football game at Notre Dame Stadium.

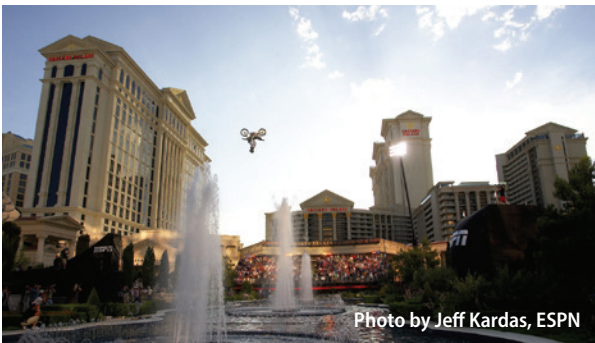

## SPACE SHUTTLE

### Space Shuttle Launch Complex 6 – Lighting Test Vandenberg Air Force Base, California

With a custom design to withstand the high heat of the launch complex, the Musco Light system facilitated a lighting test and provided flicker-free light conditions for high-speed photography.

## IMPOSSIBLE JUMP

### Caesars Palace – The Impossible Jump Las Vegas, Nevada

Musco Light provided high-quality lighting for a national broadcast as daredevil motorcyclist Mike Metzger “defied the impossible” with a world-record backflip over the fountains at Caesars Palace.

## U.S. CAPITOL

### United States Capitol – Historic Moments Washington D.C.

We’ve had the privilege of lighting several U.S. presidential inaugurations and every “A Capitol Fourth” concert since 1986, among other memorable moments in our nation’s history.
